Experience

Denari Software / Software Developer

December 2016 -Present, Wellington, FL

- Developed internal and external web applications using C#, VB.net and T-SQL with ASP.NET and SQL Server
- Wrote clean and maintainable code using MVC and OOP design patterns
- Worked alongside a team of developers using Team Foundation Version Control
- Developed proficiency in frontend frameworks such as KendoUI for jQuery
- Designed and modeled relational database schemas
- Developed and integrated RESTful API's
- Worked on a team practicing Agile software development

[Vivid Arts](#) / Part Time - iOS Development Internship

January 2017 - June 2017, Palm Beach, FL

I worked closely with the CEO and Co-founder of Vivid Arts developing their iOS application using Swift and Xcode to retrieve and present data for users to easily consume.

Projects

[The Powerlist](#) / iOS Application

April 2017

The Powerlist is an iOS application currently available on the Apple App Store. It utilizes core data and SQLite to store user's powerlists locally on the device. The Powerlist is a tool that helps users effectively meet goals.

[Freshwaterelectric.com](#) / PHP & MySql Web Application

March 2017

For Freshwater and Son's Electric I built them a web application that provided content for clients and potential customers to consume on a public facing portion of the website. The internal use portion of the site was protected with user authentication. The passwords were hashed in a MySQL database which could be changed if needed by the user. Employees had the ability login and submit timesheets. Office administrators could maintain a list of jobs and employees, track which employees were on a particular job, view labor hours spent on a job, add new users and add photos to the client facing photo gallery.

Education

Palm Beach Code School / Web Development

September 2016 - March 2017, Palm Beach Gardens, FL

Participated in the Web Development program where I amassed knowledge in HTML, CSS, Javascript, jQuery, PHP, MySql, Bootstrap, Wordpress, Git, GitHub, and Photoshop in class and online using teamtreehouse.com gaining more than 8,000 points.

Palm Beach Central High School / High School Diploma

August 2012 - May 2016, Wellington, FL

Participated in the OJT program during my Junior and Senior year and played on the junior varsity football team during my Freshman and Sophomore year.
